# DISINFECTION & SANITIZATION SERVICES

With the current CoronaVirus (COVID-19) outbreak running rampant worldwide, people are scrambling to protect themselves, their homes and businesses from potential contamination.

An infectious outbreak in your place of business is not only dangerous to the health of your employees and clients; it can also hurt your company's reputation beyond repair, cause you to lose profits and customers, and much more.

Muheel disinfection services can sanitize and disinfect large and hard to reach areas, kill pathogenic bacteria, inactivate viruses (including coronavirus) and more to help you keep the health of your business intact.

Muheel, as a facilities management company accredited by the British Institute of Cleaning Science (BICS), can deliver the highest professional standards possible using VIREX cleaning chemical, which is EPA approved for COVID19.

We are dedicated to providing rapid emergency response 24/7, involving extensive cleaning and disinfection operations across Saudi Arabia. Helping to create better places to work and live.
